Professional Summary

Web Developer with hands-on experience designing, developing, and deploying scalable full-stack applications using React, TypeScript, Node.js, MongoDB, and PostgreSQL. Collaborated on cross-functional teams, optimized performance, and implemented user-centric solutions to enhance digital experiences.

Education

-Master.D, Lisbon, Portugal	Diploma
Assistant Administration & Finance, Obtain 93% marks,	December - 2017
-Manchester City College of Technology, Manchester, UK	Diploma
Management and Leadership, QCF Level-5	April - 2014
-National University of Bangladesh	Degree
Bachelor of Arts, Total obtain 55% marks out of 100%	August -2010

Training

Next Level Web Development Course (Level-2), Programming Hero.

July 2023 – Aug 2025

Projects

Digital Wallet(Tranasctly)—React, Redux Toolkit, RTK Query, TypeScript, Node.js, MongoDB,

- Built a secure, role-based wallet system with User, Agent, and Admin dashboards.
- Implemented JWT auth, wallet transactions (deposit, withdraw, transfer), and transaction history.
- Improved performance by 30% through optimized state management.

GitHub: ([Frontend](#) | [Backend](#)) | [Live Link](#)

STREET-GRUB – React.js, Next.js, TypeScript, Prisma, PostgreSQL, TailwindCSS

- Designed and implemented dynamic UI with reusable components and scalable layout.
- Developed and orchestrated role-based access control for secure, multi-device use.
- Collaborated on UI/UX concepts and performed manual testing for optimization.
